

3자 SDK 로그인 API

Request

- Method : POST
- URI : <https://gamepot.apigw.ntruss.com/gpapps/v1/graphql>

```
PUT
url : https://gamepot.apigw.ntruss.com/gpapps/v1/graphql
Header : 'Content-Type: application/json'
body :
{
  "query":"mutation signInV3($projectId: String!, $storeId: String!,
  $provider:String!, $providerId: String!, $providerEmail: String!,
  $providerToken: String) {
    signInV3 (input: {projectId:$projectId, storeId: $storeId,
  provider: $provider, providerId: $providerId, providerEmail:
  $providerEmail, providerToken: $providerToken}) {
      id
      projectId
      email
      verify
      agree
      provider
      providerId
      nickname
      token
    }
  }",
  "variables":{
    "projectId" : "XXXXXX-XXXXXX-XXXXX-XXXXX",
    "storeId" : "android",
    "provider":"thirdpartysdk",
    "providerEmail":"","",
    "providerToken":"","",
    "providerId" : "XXXXXXXXXXXXXX"
  }
}
```

예시)

```
curl --location --request POST
'https://gamepot.apigw.ntruss.com/gpapps/v1/graphql' \
--header 'Content-Type: application/json' \
--data-raw '{"query":"mutation signInV3($projectId: String!, $storeId:
String!, $provider:String!, $providerId: String!, $providerEmail: String!,
$providerToken: String) {
    signInV3 (input: {projectId:$projectId, storeId:
```

```

$storeId, provider: $provider, providerId: $providerId, providerEmail:
$providerEmail, providerToken: $providerToken}) {
    id
    projectId
    email
    verify
    agree
    provider
    providerId
    nickname
    token
}
},"variables":{
  "projectId":"XXXXXX-XXXX-XXXX-XXXX-XXXXXX",
  "storeId":"pc",
  "provider":"thirdpartysdk",
  "providerEmail":"","
  "providerToken":"","
  "providerId":"XXXXXXXXXX"}}'

```

| Attribute | Type | Required | Description |
|-------------------------------|--------|----------|--------------------------------|
| projectId | String | O | GamePot SDK의 projectId |
| storeId | String | O | 스토어 정보(google, one,galaxy,pc) |
| provider | String | O | thirdpartysdk 값으로 고정 |
| providerId | String | O | 3자 SDK를 통해 전달 받은 고유 사용자 아이디 |
| providerEmail / providerToken | String | O | 빈칸으로 유지 |

Response

성공

```

{
  "data": {
    "signInV3": {
      "id": "XXXXXXXXXX",
      "projectId": "XXXXXX-XXXX-XXXX-XXXX-XXXXXX",
      "email": "",
      "verify": "N",
      "agree": "Y",
      "provider": "thirdpartysdk",
      "providerId": "XXXXXXXXXX",
      "nickname": "",
      "token": "게임팟 토큰"
    }
  }
}

```

```
}  
}
```

실패시 error 관련 내용 제공

```
